

Relay Module Of Power Surveillance

Specification

- Size: 67(W)x50(L)x30(H)(mm)
- Input: 8-30VAC or 11-30VDC
- Current : 45mA @ 12VDC
- Contacts Rated at: 5A @ 24VDC
5A @ 30VDC
- Operating temp: -20-+70°C
- Weight: 0.08kg

Basic Instruction

An exceptionally versatile version of the relay module, the relay module will operate on AC Voltage ranging from 8 volts to 30 volts and will also work satisfactorily on DC voltages from 11 volts to 30 volts. The Relay Module is worked when power input then contacts will change over from NC (Normally Close) to NO (Normally Open).
