

Wireless Access Reader

WR1-B

WR1-W

Product Advantages

The wireless Reader Kit includes a Wireless Reader and a Receiver. 433MHz Rolling Code of encryption algorithm guarantees higher-secure, programmable Wiegand output of the Receiver makes it can work with most Wiegand controller in the world. Super strong 3M stickers provide a simple way for installing the Wireless Reader.

- Communication Frequency: 433MHz
- Communication Distance: 30m Maximum

Specifications

| | |
|----------------|------------------------------|
| Card Type | 13.56MHz Mifare Card |
| Voltage | 3 units of AAA batteries |
| Waterproof | IP65 |
| Color | Black, White optional |
| Dimension | 120 x 50 x 20mm |
| Voltage | DC12V(Receiver) |
| Wiegand Output | 26 bits Or 34 bits(Receiver) |
| Dimension | 50 x 25mm(Receiver) |
